DETAILED ACTION

Due to a typographical error in the previous office action, it should be noted that claims 1-24, not 1-4, were meant to be rejected over the prior art. The examiner regrets any inconvenience this may cause applicant.

Response to Arguments

Applicant's arguments filed 6/28/04 have been fully considered but they are not persuasive. The secondary references were used merely to show the use of an assist member, e.g. a spring, to assist in moving heavy weight material from one location to another. This is the heart of applicant's invention. Analogous art includes either art in the same field i.e. wood chippers, or art in the field in which the problem lies i.e. in weight assisted loading mechanisms. Thus, the examiner sees no problem in combining the references as set forth below.

Claim Rejections - 35 USC § 103

Claims 1-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over APA in view of either Neagu, Jones, or Holzhauser et al. See the previous office action for this rejection.
